Local and General

Happenings Here, There and Everywhere, Past Present and Future

Mr. W. H. Belden, who has been attending Normal School at Edmonton, returned to this district last Friday. Mr. Belden will teach in a school near Oyen this summer.

During last week a gang of men have been laying the heavy steel rails on the C.N.R. track between Cereal and Chinook.

Miss Marie Fredericksen, who has been visiting in town, left for her home near Sibbald last Saturday.

Mr. J. H. Dowler was a visitor in Calgary over the week-end.

Inspector J. L. Parker, of the Dept of Neglected and Delinquent Children, was in town last week.

Owing to washouts on the C. N.R. east of Alask, the Calgary, Saskatoon trains had to run via Elrose junction and Eaton for several days last week.

Mr. R. Gilbert, of Calgary, is now on the staff of the Union Bank here.

At a meeting of the Cereal Sports Commission held recently it was decided to hold their annual Sports Day on June 24.

Mrs. Earl Brownell and daughter left on Saturday for a few days visit with Mr. and Mrs. Will Carter, of Delia.

At the last meeting of the Village Council it was decided to enforce the Curfew By-law, which came into effect last Monday night.

Mr. O. Hinds is moving this week into R. Brownell's residence on 3rd Avenue.

Bert Knight spent a few days in Rosebud this week.

These fine days make one anxious to get at the garden. For a good selection of seeds and garden tools, see R. S. Woodruff.

Mrs. Robt. Vanhook left on Tuesday morning for Calgary, accompanied by her fifteen months old daughter who will receive medical treatment.

A meeting of the members of the Chinook Curling Club will be held in the Banner Hardware store on Monday evening, April 25. After the curling meeting, there will be a meeting for the purpose of organizing baseball club for the coming season.

Mr. Wm. Pullen, who has been spending the winter in Calgary, returned to his farm north of town last week.

Miss Helen Fox, of Youngstown, is visiting her sister, Mrs. O. Hind.

If you intend to put down butter or eggs this summer, you will find suitable crocks for this purpose at R. S. Woodruffs.

Mr. J. L. Carter is building another residence on First Street.

Village Council

Will Enforce Curfew By-Law

Likely Remove Tie-Posts From Business Section

The regular meeting of the Chinook Village Council was held last Thursday evening in the Secretary's office, the Reeve in the chair.

Besides the usual business there was a general discussion of town affairs, and several matters brought up were practically decided on, and several new By-laws will be officially announced later.

A Curfew By-law was passed and came into operation last Monday night.

A somewhat lengthy discussion was held on the advisability of purchasing or renting a vacant lot to be used as a pound and a tie-place for horses, also the removing of all tie-post from the business section of the town.

The Council intend to enforce the Pound By-law this summer, but some changes have to be made before this can be done.

Red Cross Organize for Membership Drive

From June 5 to 12

Organization work for the Red Cross "Membership Week" which is to take place from June 5th to 12th, is being actively carried on under the direction of Brig.-Gen. H. F. McDonald, C.M.G., D.S.O. who has accepted the position of campaign director for the province.

The campaign is part of a nation-wide effort to secure members for the Canadian Red Cross Society at the usual annual fee, and is not in the nature of a financial appeal. A number of provincial organizers have already been selected.

Ladies Card Club

The third meeting of the Ladies Card Club was held at the home of Mrs. J. Rennie, when Mrs. T. O. Stephenson was the hostess. Mrs. Wm. Lee won the prize with 145 points. The prize being a pair of silk hose.

The next meeting will be held at the home of Mrs. Wm. Lee.

The bridge on Sounding Creek north of town was washed out last week.

Mr. M. E. Bird was busy this week planting trees on his property. Whose next?

We Are Selling Cheaper Mileage

You may get extraordinary mileage out of any one tire—but that's not the way to figure mileage.

Get the average of mileage given by a pair of tires or a set—and you will get nearer to the actual cost of mileage to be charged to the upkeep of your car.

It's just because we've taken the trouble to figure values that way, that we recommend Ames Holden "Auto-Shoes."

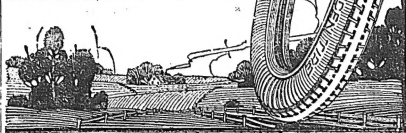

We know they are giving real mileage over the worst roads in the country and their "average" performance leaves no doubt in our minds that Ames Holden "Auto-Shoes" will give you the cheapest mileage you can buy. And they are guaranteed without time or mileage limits. Drop in and let us show you and tell you about

Canada Needs More People

In the development of the natural resources of Canada, and the resultant increase in traffic for the transportation systems of the Dominion, is to be found the only permanent solution of the problem now presented by the annually recurring, and increasing, deficits in the operation of the National Railways. This was the view expressed in this column last week, and further study of the question only serves to confirm and strengthen that opinion.

It is gratifying to note, too, that the soundness of this suggested solution is being urged more and more upon the Federal Government and the people of Canada. Such influential men as Hon. T. A. Crenn, President of the C.P.R., Sir Frederick Williams Taylor, general manager of the Bank of Montreal, and other leaders in Canadian affairs, support this view.

If in the development of our natural resources lies the solution of our railway problems—and if increased business will solve the railway problem it will likewise assist to solve other national problems of taxation and economics—then the question presents itself as to which of our many resources attention should first be turned as best calculated to quickly respond to well directed Government and individual effort. Also, in the light of existing world conditions, which of our resources will make the strongest appeal to the people of the world? Again, which of our resources, if more fully developed, will react upon and operate to bring about the development of other resources?

There can be no two opinions as to the richest, the most important, the basic natural resource of this country. It is to be found in the agricultural lands spread over the Dominion from the Atlantic to the Pacific. Valuable as are the mines, the forests, the fisheries of Canada, and necessary as they are to the upbuilding of a strong and self-contained nation, they individually and collectively take second place to agriculture.

The first essential to the development of the unutilized acres of Canada's fertile agricultural lands is population. Without people the lands must remain idle and unproductive. Lacking workers on the land, crops cannot be produced. Unless our unsettled lands are peopled with workers who will produce, and through their production create traffic for the railways, all the economies in the world will not result in making those railways profitable.

Furthermore, it is only through the placing of people on the land that the necessary demand will be created for manufactured products of all kinds, the demand for which, in turn, forces the development of our mineral and timber resources, and thereby create still further traffic for the railways and provide employment for an ever increasing body of artisans and skilled workers in shop and factory.

Another million of people settled on farms in Canada and producing wealth from the soil would result in such a volume of produce for export in the shape of grains and livestock that many of our now unprofitable lines of railway would become paying propositions, because for every dollar's worth of produce shipped out, the people on the land would purchase a dollar's worth of goods to be shipped in.

Yet there are people in this country who are advocating the adoption of the most stringent regulations to prevent immigration into Canada. Nothing could be more shortsighted. All will agree that the bars should be kept up against the mentally, morally and physically deficient. Canada does not want such as these, who are not producers, but who become a menace and burden to the state. But Canada does need and must have a large increase in immigration of the right type of people if it is to develop and prosper.

The most prosperous period in Canadian history was during those years when immigration was flowing into this country at an unprecedented rate and the vacant lands of the Dominion were being brought under cultivation. Those were the years when, with the incoming of these pioneer settlers, our cities, towns and villages grew apace; our railways were busy and constructing new branch lines as feeders; our manufacturers were constructing larger factory buildings and employing many more workers, and activity was manifest in the development of natural resources of all kinds.

With the falling off in immigration, and with large national obligations incurred for transportation and other services which were provided to meet the expected continuance of the influx of new settlers, the slump came. Then the war put a stop to all immigration for over five years, while at the same time it took its toll of millions of human lives.

The opportunity again presents itself to secure a large volume of immigration to Canada, and immigrants of the right type, too. Sound national policy demands that full advantage be taken of the opportunity. If there ever was a time when Canada needed new people to assist in the development of our great resources, it is now. Immigration should be encouraged, and there should be no trouble in selecting and eliminating the small percentage of undesirables at the port of embarkation. The great majority of immigrants come to Canada to better their condition, and have a fairly clear idea in mind of what they are going to do. They should be encouraged to come, and a helping hand and all reasonable assistance and a warm welcome extended on their arrival.

Picture Film 15 Miles Long.

A motion picture film, 15 miles in length, and which requires nearly 24 hours for continuous exhibition, has been completed in Italy, showing the principal incidents in the Bible from the Creation until the birth of Christ.

Gold Exported From Yukon Territory

During last year there were mined and exported from the Yukon Territory 110,000 ounces of gold. The cost of production has increased enormously and when the cost is added, large quantities of gold-bearing gravel will be washed.

Unless worms he expelled from the system, no child can be healthy. Mother Graves' Worm Exterminator is an excellent medicine to destroy worms.

A Mountain Wilderness

Jasper Park is Largest Big Game Sanctuary in World. Jasper Park, east of the Yellowhead Pass through the Rocky Mountains, traversed by the Canadian National Railways, has an area of 4,400 square miles. It is, therefore, a little more than twice the size of the province of Prince Edward Island. Jasper Park is an immense mountain wilderness, partly unexplored. It contains unclimbed mountain peaks, glaciers, snowfields, canyons and many lakes; also Mount Robson, the highest known peak in Canada. It is the largest big game sanctuary in the world.

It has been estimated that one Iceland waterfall could be made to yield 60,000 horse-power and another 50,000.

All things wait for those who come after them.

Minard's Liniment For Burns, Etc.

Insatiable Birds

There Wasn't Much Left for the Shipper After the "Ducks" Got 'Through With It.

A new story is going around the financial district about an old south ern negro who was asked by the proprietor of a store how he happened to need credit when he'd such a good cotton crop.

"The ducks got 'bout all that cotton, sah," was the mournful reply.

"What do you mean the ducks got it?"

"Well, you see," explained the old man, "I sent dat cotton up to Memphis an' dey deducts the freight, an' dey deducts the storage charges, an' dey deducts the commission, an' dey deducts the taxes—yes, sah, de ducks got 'bout all dat cotton an' dat's why I'm here."—Boston Transcript.

THANKFUL MOTHERS

Once a mother has used Baby's Own Tablets for her little ones she would use nothing else. The Tablets give such results that a mother has nothing but words of praise and thankfulness for them. Among the thousands of mothers throughout Canada who praise the Tablets is Mrs. David A. Anderson, New Glasgow, N.S., who writes:—"I have used Baby's Own Tablets for my children and from my experience I would not be without them. I would urge every other mother to keep a box of the Tablets in the house." The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach; drive out constipation and indigestion; break up colds and simple fevers and make teething easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Won't Be Observed.

A bill to abolish tipping, gratuities and perquisites may be introduced in Parliament. The idea of such a measure will receive approval from a lot of people who will disregard it. There is ground for the contention that tips are extortions that add to the cost of what has been well paid for. They are few, however, who will venture to live up to their theories. The average man is a coward when confronted by a custom.—Montreal Gazette.

TOBACCO HEART

Every Smoker Read This

Tobacco does not seem to affect all alike. Many men enjoy their smoke, live to a good old age, and apparently suffer no ill-effects from the use of the weed.

There are others, though, on whose heart and nervous system tobacco produces the most serious results. It causes palpitation, pain in the heart, and irregularity of its beat, makes the hands tremble, sets the nerves on edge, and causes shortness of breath and loss of sleep.

To counteract this demoralizing influence on the heart and nerves there is no remedy so equal Milburn's Heart and Nerve Pills.

They make the heart beat strong and steady, restore tone and vigor to the nerves, and remove the evil results caused by the tobacco.

Mrs. D. McKillop, Coxeath, N.S., writes:—"I was using too much tobacco, and got so I could not sleep at night, my hands used to tremble something awful, and I suffered terrible from pains in my heart. I told a friend about it, and he advised me to get your Milburn's Heart and Nerve Pills. I took two boxes and they gave me great satisfaction."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Cool has been found valueless in the best porcelain furnaces, the fumes discoloring the ware.

Good Profit in Poultry

Alberta Farmer Who Kept Record Shows that Money Can Be Made Out of this Side Line.

An example of the profits that may be made with poultry on western prairie farms is given by W. E. Decker, who farms near Bassano, Alta. On January 1st, 1920, he had on his farm two hundred and fifty-eight White Leghorn hens. From these hens they obtained and sold eggs to the value of \$656.35. They used and set eggs to the value of \$283.90. They also sold \$105.79 worth of chickens and the value of the poultry they used at table was \$14.10. This makes a total of \$1,060.14. Against this feed to the value of \$73.99 was bought, and about \$200 of grain raised on the farm was given to the hens. The net profit, therefore, amounted to \$786.15—not a bad return from a side line.

The flower of the Mohammedan religion is the violet.

Canada Not Trading With Belgium

Has Lost Opportunity Says Agent General of Quebec.

That Canada had done absolutely nothing toward the industrial reconstruction of Belgium and so lost the opportunity to capture the Belgian market, was the statement of Godfrey Langlois, agent-general of the province of Quebec in that country, speaking before the Chambre de Commerce de Quebec. Mr. Langlois declared that out of the 300 United States and English agents who gathered in Brussels after the armistice there was not a single Canadian. He had tried to get a Canadian bank to establish a branch there, but his efforts were useless.

He pointed out that New York was selling Canadian goods in Belgium and making their big profits on them. Until he had taken steps to remedy it even the Canadian dollar was not listed on the Brussels stock exchange.

Cardston Irrigation Project

Alberta Government Will Irrigate About Fifteen Thousand Acres.

The Alberta Government consulting engineer, D. W. Hays, has just completed an examination on behalf of the government of the United Irrigation District, which has been formed for the purpose of irrigating about fifteen thousand acres of first-class farm land near Cardston in Southern Alberta.

Mr. Hays says the project is quite feasible and is, in fact, the simplest proposition he has ever met with. There are no difficulties to surmount and the construction work can be carried out without any large or expensive machinery. It is expected that work on this project will be begun this summer.

Soft corns are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

City and Rural Population.
The New York Tribune is authority for the statement that in the United States there are 51,318,082 persons living in cities, as against 51,390,739 outside them.—Montreal Herald.

He says I have never considered a stock of household remedies complete until I had of Minard's Liniment. For burns, bruises, sprains, frost-bites or chilblains it is excellent, and I know of no better remedy for a sore throat or the headache or that will cure immediate relief than to inhale from the bottle through the nose and lungs.

And as to my supply of veterinary remedies it is essential, as it has in very many instances proved its value. A recent experience in reclaiming what was supposed to be a lost section of a valuable cow's udder has again demonstrated its great worth and prompts me to recommend it in the highest terms to all who have a herd of cows, large or small. I think I am safe in saying among all the patent medicines there is none that cures as large a field of usefulness as does Minard's Liniment. A real tonic good for man and beast.

CLAS, K. ROBBINS,
Chebogue Point, N.S.

Effective Plan to Destroy Hoppers

Flame Throwers in France Meet Success in Exterminating Locusts. How the flame thrower troops of the French army provided large quantities of freshly roasted meat for the poultry of the country and at the same time rid the fields of crop-destroying grasshoppers and locusts is told by Dr. L. L. Howard, chief entomologist of the U.S. Department of Agriculture, who recently inspected insect-fighting methods of that country. The hoppers were swept into great heaps by living circles of soldiers and then exterminated by the flame.

Keep Your Eyes Clean, Clear and Healthy

Old Fort Ellis and Sioux Indians

Crossing the Plains to Fort Carlton
Summer 1875.

By O-GE-MAS-ES (Little Clerk).

(Copyrighted)

(Continued)

The husband of the insulted woman was particularly bloodthirsty and quite mad with rage. The young braves backed him up and were searching everywhere for A— no doubt it would have gone hard with him if his hiding place had been discovered. Our interpreter talked until he was hoarse trying to make some sort of settlement that night; they however would not treat. They would not smoke, but clamored for the guilty man and threatened to burn the fort over our heads. Of course we could on no account surrender him to their far from tender mercies. Next day, by good luck, Chief Factor McDonald returned sooner than expected and there was a Grand Council held in the large Indian room of the fort, some forty of the leading Sioux being present.

It was a fine sight and quite an education for us youngsters to see this thin spare Scotchman walking up and down before the assembled warriors and rating them as if they were a lot of school boys. I only remember the general tenor of his remarks which were chiefly delivered through an interpreter, though at times he would break into broken Sioux interspersed with Gaelic and Cree.

The speech follows:
"Did you never play the fool your selves when full of fire water? The woman is not hurt. What is all this fuss about? You wait until my back is turned and then rush in here at night trying to scare everybody. Shaking his fist at them, 'I tell you, Sioux, if you are not more civil I will report you to the Queen's Red Coat Soldiers at Fort Pelly. You cannot go back across the line as the Big Knives are waiting for you there. The Sioux nation will be wiped out like this' (clapping his hands together), and so on in much the same strain.

McDonald was right. The Mounted Police were being organized at Fort Pelly that summer and the very fact of their red coats (the numbers of course were very much exaggerated) had created a tremendous impression amongst all the Indian tribes.

After a long pow-wow, the damage to the Sioux husband's injured feelings was compensated by a substantial payment, which amount was duly charged to the guilty clerk's account, while he was smuggled out of the fort and sent back to his post with orders to stay there. Poor sinners, the company put up with his failings for some years and then dismissed him, and from that his course was downward.

A peculiar incident took place with the Sioux a little later on. A small band of Crees had come in from the plains and camped on the west side of the fort (the Sioux were on the east). They were well supplied with buffalo robes, dried meat, and pemican, also lots of ponies. This was very attractive to the Sioux who were as poor as the Crees were well off. They finally made friendly overtures to the Crees, which were accepted, and then challenged them to a great gamble, which was promptly taken up. I had never watched any Indian gambling so was very much interested and had young McKay explain the procedure, which was simply a matter of guessing right as to which hand held the button or whatever was used. The players, some eight or ten in number, sat opposite one another in a large tepee, their laps covered with a colored blanket. Tom-toms were beating gently, louder, then furiously, while a continued "Aha, Aha" song went on in chorus. The hands were concealed, then waved in the air, and finally held rigid when the opponent made his choice. The stakes were all piled up in plain sight. I specially

noted an elderly blind Sioux sitting behind their players. He they constantly referred to when big stakes were up and invariably won. So much so, that after playing all night the Crees were beaten to a finish, losing nearly all their wealth. The fame of the blind Sioux spread far and wide, and though many Indians came in to try their fortunes, they were invariably losers. Was it telepathy, mind reading, or what? Anyway with his prophetic insight he revived the fortunes of the Sioux, and they shortly moved camp and I heard no more of them.

These Sioux, or Dacotah Indians, were not a pleasant people. Many of both sexes were handsome, but they nearly all had a hard, fierce expression, and a pleasant face was a rarity. Their tepees were scrupulously clean and tidily kept, and they were all very particular about their personal appearance. One could not forget in dealing with them that their hands were red with much innocent blood of white people, and when it came to torturing helpless prisoners the women, it was claimed were the worst offenders.

The Grand Yearly Council of the Hudson's Bay Company had been sitting at Fort Carlton and we were all anxiously waiting for the return of Chief Commissioner Donald A. Smith, and at last he and his party, driving furiously as usual with relays of ponies all along the route making from eighty to one hundred and twenty-five miles daily, arrived at Ellis. They only stayed for dinner, hurried over the minutes of council affecting Swan River to Mr. McDonald, and then pushed on to Fort Gary. Next day I was summoned to the office and informed that I had been ordered by council to Fort Simpson on the Mackenzie River, Mr. McDonald, remarking that the temperature up there would tend to cool my tropical blood. His last remark, however, made me furious. You will leave your dogs here as they cannot go in the boats; and now you can go. Well, I loved these dogs as a brother, and the dogs they worshipped me, and to be separated from them was a heart break. I had referred to this train in a former article. Part Hurley, part Scotch Stag Hound, in shape and size they took after the Scotch factor. Here, Nero, Hero and Mero, a very famous train, and no doubt when I travelled in company with the chief factor last winter he had noted their long swinging gait and staying qualities and desired to have them for his own. I had bought these dogs as puppies, reared and trained them, and fed fish enough to feed them in old hours, and by hook or crook I intended keeping them.

(To be continued)

Rheumatism Relieved in 1 to 3 Days.
Smith American Journalist. Ready is a wonderful medicine in the treatment of acute or inflammatory rheumatism, chronic rheumatism, neuralgia, and all ailments due to rheumatism. It often cures in 1 to 3 days. At drugists.

Grain Barges Looted

Foodstuffs for Vienna Are Sold to Illicit Dealers.
Vienna—Wholesale looting of grain barges bound from Jugo-Slavia to Vienna, has led to more than 100 arrests. According to the newspapers the sailors have an arrangement with illicit dealers. They sound the siren to indicate what kind of cargo they carry, the smugglers put off in boats and buy all they want, which is re-sold through the left-hand trade at an advance.

More than 50 carloads of food-stuff are reported to have been thus looted.

White Wyandottes in Lead.
Brandon, Man.—A pen of White Wyandottes, owned by Mrs. A. S. Hart, of Gladstone, has taken the lead in the Manitoba egg laying contest now being conducted at the experimental farm here.

The contest has been running 23 weeks, and in this time the Vedding pen has laid 687 eggs. A pen of the same kind of birds, owned by George Thompson, of Minnedosa, is in second place with 681 eggs.

May Negotiate for Naval Reduction.
Washington.—The first move in the present Congress looking to disarmament came with the introduction by Senator Borah, Republican, Idaho, of his resolutions authorizing the President to open negotiations with Great Britain and Japan looking to a reduction in future naval building by those countries and the United States.

Death of Venerable Priest

Father Dandurand Maintained His Faculties to Very Last.

Winnipeg—Rev. Father Damase Dandurand, O.M.I., who on March 23 last celebrated the 102nd anniversary of his birth, died on Wednesday at St. Boniface, Man. He was the oldest Catholic priest in the world, being born on March 23, 1819 in the village of La Prairie, Que., of pure French parentage.

The aged priest has been an active worker in the priesthood since the day of his ordination nearly 80 years ago. He was the first French-Canadian to enter the order of the Oblates of Mary Immaculate, that band of devoted missionaries who were practically responsible for all of the pioneer work of the Roman Catholic Church in the west.

The venerable priest played an important role at Ottawa about 47 years ago, when he was vicar general of the then diocese.

Chicago Police

Will Use Wireless

Plant Being Installed on Roof of City Hall.

Chicago.—Wireless telephones are to be used by the Chicago police in their war on crime.

A \$12,000 plant is being installed on the roof of the city hall for constant communication with rifle squads, fire boats, fire engine houses, police stations and patrol wagons.

W. M. G. Keith, commissioner of gas and electricity, who proposed the experiment, said that he hoped ultimately to have every policeman equipped with receiving apparatus, which weighs only a few ounces and can be concealed under his clothing.

Veterans Are Opposed

Say "Unknown" Buried in London Represents Canadians.

Toronto.—A suggestion made by J. B. Seggie, of Ottawa, that the body of an unknown Canadian soldier be brought from France and buried with formal ceremony at the Canadian capital was disapproved of at a meeting of the provincial command of the Great War Veterans' Association here.

It was contended that the overseas dominions were represented at the burial of the unknown British soldier in Westminster Abbey, London, England, and therefore the association was opposed to the proposal.

French Withdraw from Sicilia

Leaving Armenians to Their Fate in the East.

London.—The London Times reports that Armenian circles in London have been advised that the French have begun the evacuation of Sicilia, including not only the plain of Adana, but the whole region of Amman and of the Gulf of Alexandretta. The Sicilian Armenians have urgently appealed to the French premier not to withdraw the troops until an international gendarmerie is organized to control the Turks. It is stated that 150,000 Armenians have decided to abandon Sicilia.

Comet is Sighted

Periodic Comet Will Come Near to the Earth in June.

Cambridge, Mass.—Winnecke's Comet, a periodic comet which approaches the earth at intervals of five years and eight months, and will come "very near" to the earth in June, according to the prediction of Dr. Cromelia, the English astronomer, has been sighted by Prof. Barnard, of the Yerkes Observatory, at Williams Bay, Wis.

Itch Cured in 30 Minutes.
Itch, Mingle, and all contagious scratches on hands or ankles, cured in 30 minutes by Wollard's Sundry Lotion. At drugists.

Says Alberta May Float Loan.

Toronto.—The Toronto Star says that the province of Alberta is understood to be considering the flotation of a \$2,000,000 loan. No tenders have yet been publicly called for, and it is believed that when the province is ready to come into the market it will probably ask various bond houses to submit bids by private invitation.

Program Not Simple.

London.—The Liverpool Post declares its belief that the program of the American president "looks simpler than it really is. A mere declaratory resolution of peace," the newspaper continues, "will scarcely suffice to adjust matters between the United States and Germany."

Saskatchewan Railway Official

W. A. Mather, who is General Superintendent of the Saskatchewan District for the Canadian Pacific Railway. Mr. Mather is a resident of Moose Jaw, the Divisional Headquarters for Saskatchewan.

May Build Fin Flon Railway

Manitoba Government May Undertake Work Conditional Upon Immediate Development of Mine.

Winnipeg.—The Provincial Government is prepared to extend to the new owners of the Fin Flon Mine at The Pas, providing they will put up a marked cheque for \$1,000,000 as a guarantee that the mine will be developed at once, an undertaking that the railway to the property will be built, according to Hon. Edward Brown, provincial treasurer.

In the meantime, Mr. Brown announced, the Government has heard nothing from the new owners as to their intention in connection with the proposal to build a railway to the mine. He was, however, of the opinion that it was their intention to proceed at once with development work, with a view to putting the properties on a producing basis.

Greek Reservists in Canada are Called

Montreal.—The Greek consulate has been advised by the Charge d'Affaires for Greece in London, that reservists in Canada of the classes of 1913, 1914 and 1915, with the exception of the auxiliary classes, have been called to the colors and must apply within seven days for transportation home.

A World of Reptiles.

Aberdeen, Scotland.—The world may be ruled by a race of biped reptiles in 1,000,000 years or so, according to J. A. Thompson, professor of Natural History in Aberdeen University. The collard lizard of New Zealand, he explained in an address, is already learning to become a biped, and if it masters this secret of man's supremacy, the rest may follow.

Report Arrival of Airplane.

Grand Forks, N.D.—The all-metal aeroplane, owned by J. M. Larson, which left this city two weeks ago, passing through Canada to the far north, was reported to have arrived there safely. The machine flew from Edmonton to Peace River in 2 hours and 20 minutes.

Labor and Farmers Co-operate.

Calgary.—The Dominion Labor party, at its annual meeting, accepted a proposal of the East and West Calgary ridings U.F.A. to co-operate in electing Federal members, this making the proposal reciprocal as had been suggested by the U.F.A. District Association.

Hardly Safe in Cork.

Cork.—The proclamation against loitering in the streets has been strictly enforced. Sixty persons were arrested, forty were fined from ten shillings to five pounds. Anyone looking into the shop windows was liable to arrest.

Passports to Belgium.

Ottawa.—M. Goor, Belgian consul-general for Canada, has announced that the formality of issuing passports has been abolished as a favor to British subjects intending to visit, stay in, or travel through Belgium.

Lord Mersey on Bench.

London.—Owing to congestion in the divorce court, Lord Mersey, at the age of 71, has returned to the bench. Lord Mersey conducted the inquiries into the Titanic and Empress-of-Ireland disasters.

Want Free Lumber.

Albany, N.Y.—A resolution to memorialize Congress to remove the duty on lumber imported from Canada was introduced in the New York Legislature.

British Labor Is Determined To Wage Fight To A Finish

Problems Facing the Farmer

Conference of Agricultural Experts is Held at Saskatoon.

Saskatoon.—After being in session for three days the conference of officials of the Provincial Department of Agriculture, representatives of agricultural organizations of the provinces, official of Dominion agricultural branches, railway representatives and those from implement companies and banks, came to a close.

During the past three days every branch of agricultural effort has been under consideration and discussion. The leading experts of Saskatchewan in all kinds of agricultural development have set themselves to a study of the different problems facing the man on the soil in an effort to be able at a later stage to present some solution to these difficulties.

No note of pessimism was struck throughout the conference. While fully recognizing the problems which face the agriculturalist are real, every speaker also recognized that they were capable of being overcome. In the closing moments of the conference, Dean Rutherford, of the university, emphasized the fact that those members of the College of Agriculture staff who had been attending the conference had done so with the distinct feeling that from it would be obtained information of an extremely valuable character to them in their work of research.

Hon. C. M. Hamilton, in bringing the conference to a close, said he had sufficient confidence in the men and women engaged in research work, as well as in the farming community of Saskatchewan, to know that sooner or later the difficulties of soil blowing, short crops, better livestock and so forth would be solved with resultant prosperity to the population of the province as a whole.

Mr. Gosling interrupted: "If he recommend complete nationalization, you would not accept it, would you?"
Mr. Lloyd George answered: "You would have to go to the Commons and ask them virtually to restore control, which everyone wanted to get rid of. The Commons would ask 'how did it work?' We would say 'badly.' The House would ask, 'did it improve the outlook?' We would say it destroyed the outlook. The House would ask, 'Did it reduce the costs of the mines?' We would say no, it increased the costs. Then the House would ask, 'Why did you recommend it?' We would say, well, there was a strike of the miners, and the transport men said they would come out in a spirit of comradeship."

Telephones To Cuba

Parliamentary Heads Have Long Distance Conversation From Ottawa to Southern Isle.

Ottawa.—The first long distance telephone conversation between Canada and Cuba took place when Right Hon. Arthur Meighen, Hon. W. L. MacKenzie King, Hon. W. S. Fielding and Hon. R. Lemieux spoke in turn from the Parliament Buildings to President Mario G. Menocal, who had called up from the presidential palace at Havana to extend the greetings of the republic of Cuba to the Dominion of Canada. The conversation could be plainly heard.

Part of the line used was an underwater cable some 70 miles, from Key West, Florida, to the coast of Cuba. The first conversation between Canada and the United States took place Monday, when President Harding and President Menocal exchanged greetings.

Telephone conversations between Ottawa and Havana will probably be somewhat limited, the regular charge being \$17.55 for three minutes.

Death of Mrs. Thomas Marks.

Perth.—Mrs. Thomas Marks, mother of the Marks brothers, Canadian theatrical managers, died at the home at Christy Lake, near here, at the age of 86 years. The surviving sons in the theatrical business are Robert, Thomas, Joseph and Ernie. One son, John, is in the mining business in British Columbia, and a daughter, Mrs. Morley White, resides at Christy Lake.

Liquor For B.C.

Victoria, B.C.—There is a large shipment of liquor now en route from the Old Country for the B.C. Government. It will be here by the time the Moderation Act is in operation.

Revolt in Southern Russia Is Spreading

Reported That Don Cossacks Have Joined Anti-Bolshevik Leader.

Copenhagen.—The special correspondent of the Belingske Tidende at Helsinki reports he learns that the peasant revolt in Southern Russia is spreading like wildfire. The reports say the Governments of Tambov, Voronezh, Kursk and Samara, are in the hands of the rebels and the fall of Kharkov is imminent. Divisions eight and nine of the

London.—Strike resolutions expressing solidarity with the miners and the Triple Alliance in their present movement, were passed at a meeting of the Parliamentary Committee of the Trades Union Congress, the national executive of the Labor party, and the Parliamentary Labor party, held at the House of Commons.

"If reason is not on your side, why should you force the matter by starting it to surrender to unreason?" asked the Premier. "They are not an unreasonable people. The vast majority of those to whom you appeal are workmen. If the workmen are against us, we have no chance."

The Prime Minister said the mind of the nation for a pool in order to equalize wages, represented neither private ownership nor nationalization, but had the defects of both. It would be merely a makeshift to get over present difficulties, and would land the nation, the mine owners and the miners into infinitely worse difficulties than they were in before. He said he could not understand Mr. Hodgess, secretary of the Miners' Union, recommending it again.

Mr. Gosling interrupted: "If he recommend complete nationalization, you would not accept it, would you?"

Mr. Lloyd George answered: "You would have to go to the Commons and ask them virtually to restore control, which everyone wanted to get rid of. The Commons would ask 'how did it work?' We would say 'badly.' The House would ask, 'did it improve the outlook?' We would say it destroyed the outlook. The House would ask, 'Did it reduce the costs of the mines?' We would say no, it increased the costs. Then the House would ask, 'Why did you recommend it?' We would say, well, there was a strike of the miners, and the transport men said they would come out in a spirit of comradeship."

Here Mr. Thomas interjected: "Justice, not comradeship alone."

The Prime Minister: "How could any minister go to the House on that basis? Mr. Gosling says, 'suppose you starve us, how much better off are you?' May I put the consideration to you? Suppose you could starve the community, how much better off would you be? That is not a question to put to us. It is a question to be put to yourselves. You do not alter the vital economic position by your success. I am assuming the possibility of your succeeding."

Serious Tide In Japan.

Hakodate, Japan.—Fire which broke out here Wednesday night, destroyed four thousand houses before it was brought under control. The buildings destroyed included three Christian missions, the British consulate, several banks, hospitals, school houses, theatres and Government buildings.

Ice Floes Force Steamers South.

Boston.—Gigantic ice floes from the polar seas have moved south to the latitudes in the North Atlantic that correspond with this city, and have forced the moving of trans-Atlantic steamers 180 miles south of the usual routes at this season.

Sir Arthur Vicars Assassinated.

Dublin.—Sir Arthur Edward Vicars, former Ulster King-of-Arms, was shot dead at Listowel, and his residence burned. A tray was attached to the body, reading, "Traitors, beware; we never forget—I.R.A."

Petroleum geologists predict that the present known oil resources of the United States will be exhausted in twenty years.

Appetite Keen and Bowels Relieved

You can relish your meals without fear of upsetting your liver or stomach if you will put your faith in Carter's Little Liver Pills. Pile accumulations that poison the blood are expelled from the bowels and headache, dizziness and yellow skin are relieved. Small Pill—Small Dose—Small Price

BEAUTIFY THE HOME

Spring time means garden time. Have you made plans for that garden you intend to have this year? To make home attractive; you should plant some trees and flowers. Don't lay up all your net earnings for the benefit of your heirs, but spend some of it in beautifying the home. The person who shuts his eyes to the aesthetic features of his life and screws himself down to the task of making money, loses a large portion, and the biggest portion too, of his existence.

NIGHT PROWLING

There is no doubt but that a large per cent, of the disgrace, ruin and crime among the young people springs from the habit of night prowling, street loafing and kindred acts, of both sexes in our towns and villages. Any person that keeps his or her eyes open knows this. A curfew restriction may be devised as old-fashioned and puritanical, but the fact remains that there is vastly less night prowling in towns that have a curfew ordinance and enforce it.

Last week Chinook had a regular clean-up!

That reminds us that the Village fathers will shortly appeal to every citizen to clean up their backyards and premises. During the winter all manner of pots, cans, and rubbish accumulates on our lots. They not only mar the looks of the town, but they render it unhealthy. It is up to every citizen to assist the Council in making our town one of the cleanest and healthiest on the Goose Lake line.

SWAT THE FLY

Not every fly that comes along is carrying disease germs, but many of them are, and you can't tell which is which. Take no chances—swat all.

Municipal and Real Estate Finance in Canada

The pamphlet entitled "Municipal and Real Estate Finance in Canada" just issued by the Commission of Conservation touches upon some of Canada's most difficult financial problems. It is a clear and convincing statement by Mr. Thos. Adams, Town Planning Adviser to the Commission, regarding housing, land speculation and high taxation, resulting from municipal waste and mismanagement.

No national problem in Canada is of greater importance than that which has to do with the conservation of human and financial resources in our cities and towns. This publication emphasizes the fact that until we employ sane methods in developing our community life, any effort being made to conserve our natural resources must be nullified as a result of the careless way in which the wealth derived from these resources is dissipated by bad forms of land development.

This pamphlet may be obtained free on application to the Commission of Conservation, Ottawa. You should read it.

Collholme Municipal News

A meeting of the council of the M.D. of Collholme was held in the Collholme School on Saturday, April 2nd, at 10 a.m. All the members were present.

The minutes of last meeting were read and adopted.

The following motions were carried: That if money can be procured for the purpose the following advances of seed grain and of feed be made: E. A. Forkner, wheat, \$100; feed, \$50. H. Dunster, wheat, \$100. R. Peyton, wheat, \$50; oats, \$50; feed, \$50. Thos. Langsford, wheat, \$100; Chas. Ellis, wheat, \$50; oats, \$10. Jas. McDougall, oats, \$50; A. C. Anderson, wheat, \$75; oats, \$25. L. C. Milloy, wheat, \$100; oats, \$50. P. E. Berry, wheat, \$100; oats, \$50; Geo. Marr, wheat, \$100.

That L. C. Milloy be granted relief as follows: coal, \$15; groceries, \$20.

That Jas. Montgomery, of the north half 12-28-7, give to the municipality a bill of sale of one proceeds of 725 bushels of wheat in store in the Alberta Pacific Elevator, Corral, the thicket for 61 bushels of wheat in the Alberta Pacific Elevator, Chinook, this wheat to be sold by the municipality. \$450 of the proceeds applied on Mr. Montgomery's seed grain indebtedness, and a sum not exceeding \$350 to be paid to Oser, Hammond & Nason on arrears of interest, on their mortgage on this land; that Mr. Montgomery need 100 acres of this half section to wheat this year. These conditions fulfilled he shall have the right to use the rest of his crop as he may see fit.

Key—That U. S. Peterson be given permission to dispose of the balance of his 1920 crop providing a bill of sale for tickets for 150 bushels of his wheat is given to the municipality.

Marr—That L. K. Sully be given \$100 of seed wheat for the south-west of 28-7, and Mrs. M. Sully \$100 worth for the north half 30-28-7.

Falconer—That A. G. Walter be allowed to retain 100 bushels of wheat out of last year's crop for seed for this year.

That A. E. Roberts be allowed to dispose of the rest of his crop providing he pay \$400 on his seed grain indebtedness of \$500.

That anyone indebted to the municipality for seed grain or relief will be required to insure their crop and assign the insurance to the municipality for a sum sufficient to cover this indebtedness.

That Chris. Hole be allowed to dispose of the balance of his crop providing 150 bushels of the wheat stored by him in an elevator at Youngstown is turned over the municipality.

That the secretary be instructed to notify the T.O.E. elevator at Youngstown that the wheat stored here by Wm. Cardlit from H. E. O'Connor's farm is covered by a municipal crop lien, and that the proceeds of the wheat when it is sold must be paid to the municipality.

That A. E. Mannen be allowed to use the seed and feed held by him, and for which the municipality has a bill of sale, only on condition that the seed and feed is used for putting in a crop on his own place, and on condition that additional security for this seed and feed is given to the municipality.

That McCormack Bros., of Rearville be notified that the plot of Russian thistle reported to be on their land must be looked after as soon as the weather will permit.

That the council have no objection to John McLennan fencing the road allowance west of section 23-28-5-4, providing suitable gates are placed thereon.

Whereas the municipal district of Collholme, is indebted to the Union Bank of Canada for the sum of at least \$45,000 for moneys borrowed during the year 1920 for seed and feed grain and relief purposes; and whereas the value of the notes held by the municipal district of Collholme on the 31st day of December, 1920, for advances to its ratepayers of seed and feed grain and relief was \$45,972.36; the council therefore enacts: That the total amount of these notes, \$45,972.36, be assigned to the bank with the understanding that all moneys received therefrom shall be applied in payment of the said indebtedness of \$45,000 until such time as it is paid in full.

Whereas the municipal district of Collholme is indebted to the Union Bank of Canada for \$20,000 for moneys used during the years 1919 and 1920 for municipal and school purposes; and whereas the total amount of arrears of municipal taxes, school taxes, for destruction of weeds, hospital advances and arrears on the tax sale list, on the 31st day of December, 1920, as shown by the auditor's report for 1920 was \$47,591.32; the council therefore enacts that the total amount of these arrears of taxes, \$47,591.32, be assigned to the bank with the understanding that all moneys received from the municipality in payment of these arrears of taxes shall be applied to

payment of the said indebtedness of \$20,000 until such time as it is paid in full.

That the estimated receipts and expenditures of the municipality for this year be as follows:

Expenditures—Councilors' fees \$600; salaries, Sec. Treas., \$1,350; auditor, \$100; weed inspectors, \$1,200; destruction of sophera, \$3,000; grants to agricultural societies, \$400; postage and stationery, \$250; printing and advertising, \$150; election expenses, \$50; road work, \$7,200; mulebery and repairs, \$400; office supplies and equipment, \$300; interest to bank for general account, \$1,000; miscellaneous, \$650. Total, \$16,650.00.

Receipts—Municipal taxes for 1921, \$17,000; from arrears of hospital advances, \$500; from arrears of noxious weeds taxes, \$400. Total, \$18,200.

Whereas the sum of \$8,350 is required to meet the expenditure of the municipality for municipal purposes until such time as the taxes levied thereon can be collected, and in the opinion of the council these taxes cannot be collected before the 31st day of December next; and whereas the estimated revenue of the municipality for the present year for municipal purposes exceeds the sum of \$8,350 and it is desirable to borrow the said sum of \$8,350; the council therefore enacts: That the chairman and treasurer be authorized to borrow from the Union Bank \$8,350 and to give a note of the municipality for the amount of such advances, payable not later than December 31st next with interest not exceeding seven per cent, and to sign such notes on behalf of the municipality; and the moneys so borrowed shall be repaid out of, and shall be a first charge upon the taxes which are collected for municipal purposes for the current year.

Whereas the sum of \$15,000 is required to meet the expenditure of the municipality for school purposes until such time as the taxes levied thereon can be collected, and in the opinion of the council these taxes cannot be collected before December 31st; and whereas the estimated revenue of the municipality for school purposes for the present year exceeds the said sum of \$15,000, and it is desirable to borrow \$15,000; the council of the municipality therefore enacts: That the chairman and treasurer be authorized to borrow from the Union Bank \$15,000 and to give the note of the municipality for the amount of such advances, payable not later than December 31st, with interest at not more than seven per cent, and the moneys so borrowed shall be paid out of and be a first charge on the current year's school taxes.

Whereas the sum of \$5,000 is required to meet the expenditure for seed grain purposes for until such time as the taxes levied thereon can be collected, and in the opinion of the council these taxes cannot be collected before December 31st; and whereas the estimated revenue of the municipality for seed grain purposes for the coming year exceeds \$5,000 and it is desirable to borrow \$5,000, the council of the municipality therefore enacts: That the chairman and treasurer be authorized to borrow \$5,000 from the Union Bank and to give a note for such advances payable not later than December 31st with interest not exceeding seven per cent, and the moneys so borrowed shall be paid out of and be a first charge upon the taxes which are collected for seed grain purposes for the current year.

Whereas the sum of \$2,000 is required to meet the expenditure of the municipality for relief purposes until the taxes can be collected, and in the opinion of the council these taxes cannot be collected before December 31st, and whereas the estimated revenue of the municipality for relief purposes for the present year exceeds \$2,000, and it is desirable to borrow \$2,000, the council therefore enacts: That the chairman and treasurer be authorized to borrow \$2,000 from the Union Bank and to give a note for the amount of such advances, payable not later than December 31st with interest not exceeding seven per cent; and the moneys so borrowed shall be paid out of and be a first charge upon the taxes to be collected for relief purposes for the current year.

Bylaw No. 20 of the M.D. of Collholme A Bylaw relating to Seed Grain Loans.

Under the authority of the Municipal Districts Seed Grain Act, the council of the M.D. of Collholme enacts as follows:

1. This municipal district may for the spring seeding season of 1921 advance seed grain on credit to farmers residing on patented lands within the municipal district, who, owing to bad crops of other adverse conditions are unable to procure the same, and the council may to enable it to make such advances, borrow upon the promissory note or notes of the municipal district \$3,000 for the purchase of a supply thereof for distribution.

2. The purchase price of all seed (Continued on page eight.)

ADVERTISING

A Modern Necessity

ADVERTISING is to-day one of the greatest forces at work in our every-day life. Governments use it to announce new policies, to raise money and armies, and to mould public opinion. It enables you to judge values, to buy to better advantage. It influences you in what you wear, eat, buy and do.

THE CALGARY HERALD is Alberta's largest and best known advertising medium. It carries all important announcements—changes in railway schedules, legal notices, the big city stores' bargains, the special sales, theatrical, amusement and sporting events, births and deaths, a directory of Alberta's professional firms, auction sales, new legislation, first word of the new fashions, etc.—you will find them all in Alberta's Greatest Daily.

THE HERALD'S Classified Advertising pages represent the greatest market place in the west. Here more buyers and sellers meet daily than through any other medium. It's here that thousands turn when they want something—and they save time and money.

In addition to giving you a bigger, better paper, and more and better news, The Herald carries all the advertising that is worth while.

An American View Of Problems Confronting War-Stricken Europe

(Richard Spillane in the Philadelphia Public Ledger)

If the French or British or Italians, or any of the Europeans, do anything or say anything that smacks of ingratitude to America, be tolerant. War has left an aftermath of problems that are so difficult of solution and in some instances are becoming so complicated that they must be excused if, at times, they give an exhibition of what, in the case of an individual, would be called "nerves."

to a point almost beyond reason, America must not misunderstand but must be tolerant, ever tolerant, as we are with the sick.

That is what those who know most about Europe's woes and Europe's needs declare.

The Craze for Amusements

Agencies That Create and Foster a Taste For Higher Things.

Professor J. L. Morrison, of Queen's University, tells a teachers' gathering that the average young Canadian of today cares nothing for books. "Organized amusement, the automobile and the moving picture shows are challenging the reading of books. The garage has displaced the library—golf clubs have taken the place of books."

A love of books has never been a passion of the average youth in any country at any age, but it is probably true that new forms of amusement are occupying the leisure of increasing numbers of boys, girls and youths," the Toronto Globe says.

"Motoring and golf are the recreations of a minority, and often pay dividends in health. The moving picture is the pastime of the majority, and if it cannot be made an educational influence it should at least be deprived of its power for evil. Professor Morrison is speaking half-figuratively when he says the garage has displaced the library, but the youth who is neglecting his education is the one who drives his father's motor car and when anything goes wrong with it sends it to a garage and pays no further attention to it until it is ready for use again. If he tries to master the mechanism of a motor car he is sharpening his faculties, and may be led to a study of mechanical principles which will send him to the library. The tragedy of so many young people is that they have no mental curiosity of any kind, literary, scientific or mechanical."

"The craze for pleasure at the expense of self-improvement can only be combated, by strengthening the agencies that create and foster a taste for higher things and tend to a more thoughtful outlook on life. The home, the church, the school and the public library are the principal institutions for the purpose. Amusement has its part, an essential one, in the training of the young. But with growing years it should be subordinated to the pleasures of the mind. The person who is fond of a good book, or has some intellectual interest or pursuit, is enjoying life much more than the individual who lives for pleasure alone."

It is not unlikely the British, in desperate endeavor to recover their foreign commerce, will do many things that will irritate Americans, especially as America has a merchant marine second only to the British. In two big markets—South America and the Far East—the British and Americans will be sharply competitive. The British will have the advantage of long experience and well-established banking and commercial agencies. The Americans will be favored by ability to finance new developments and make government and other loans that influence trade.

France, always mercurial, has swung from excessive praise of America to carping criticism. Why not? By legislative act we have deprived her of the great market for one of her chief products—wine. The millions of dollars she got yearly for her champagnes are cut off. She is punished additionally by the debasement of the franc when, with it, she is compelled to buy American goods. From champagne, still wines and the tourist traffic she nearly balanced her import trade.

Now she faces an adverse trade balance, aggravated greatly by the loss of her wine and tourist income. Struggling under a burden of taxation which no other people would endure without repudiation or revolt, and feeling that she has been deserted by her friends after she has suffered the most of all the nations in the war, she should be excused if at times she indulges in temperamental outbursts.

All the European countries that entered the American market lately for money have a grievance. They had to pay a price that seemed excessive. It was high, very high. Nothing but dire need would have led them to submit to such charges. They feel toward America as a person scorned by his friends after an experience with a money lender who is without conscience. It is futile to explain that the rule of supply and demand obtains as to money as to everything else.

Out of all this there is likely to be more and more unpleasant criticism of America, largely unwarranted and because of that more difficult for a broad and quick-tempered people to bear.

But Europe is sick, sick in mind, sick in body and overswrought by the nerve strain of years of war. Only a few of the countries of the continent are convalescent.

Europe needs help and must have it from America. It must be furnished and it will be furnished, but it will be furnished sparingly at first, as food is furnished to the ill in the very early stages of convalescence.

And if the patient is querulous, even

Few Wheat Breeds Resist Rust

Great Difficulties of Producing Commercially Valuable Resistant Varieties.

The extreme difficulty of producing a rust-resistant wheat is outlined by W. F. Thompson, professor of biology at the Saskatchewan University, in a paper read at the recent Saskatoon conference and entitled "Breeding Wheat for Rust Resistance."

At the outset, the speaker differentiated between a rust-resistant wheat and a rust-escaping wheat, that is, one which escaped rust by reason of early maturity or other reasons. Up to the present time, varieties that are truly rust resistant are those which have no commercial value.

The speaker declared that he had tested practically all the varieties for which rust resistance had been claimed, in addition to hundreds of varieties from nearly every wheat-growing country in the world. "Out of all the varieties tested," said the speaker, "less than a dozen showed true resistance, and of these none are of commercial value for other reasons, unless it be one or two of the Macaroni type, which developments are far in the future. Practically all the resistant varieties are dumplings or emmers. No consistently resistant bread wheats have been found."

Dr. Thompson went on to say that the production of a good resistant variety appeared to be merely a question of making enough crosses and raising enough hybrid plants which would have all the other desirable qualities. This, it was recognized, would be a big task, because of the small percentage of resistant hybrids and because of the small percentage of those resistors which would possess the desirable qualities of the standard parent. Very large numbers were raised and tested, and in 1919, hybrids had been secured which were quite resistant at Saskatoon, and which at the same time looked very good in regard to other qualities.

Then came a disappointment. It was found that pure varieties which had proven resistant for several years had suddenly appeared quite susceptible. It has since been abundantly proved that the discrepancies were due to different strains of rust, strains which differ only in the virulence of their attack on particular varieties of wheat. This had enormously increased the already great difficulties of producing commercially valuable resistant varieties. If they did not resist it altogether, there was no assurance that a variety which had proven resistant in one locality would be resistant to the rust strains of another locality, and there was no assurance that a variety which was resistant in a certain locality in one year would be resistant in the same locality in another year.

"We still have varieties resistant to all the rust strains found up to the present," he continued. "But other strains may turn up which can attack them. It might be considered worth while to introduce a variety resistant to the rusts present in this year over half of Western Canada, but if this were done, it seems probable that the rust from the other half would speedily overrun this area."

Housekeeping in Hayti

Nature Provides Food And Does Most of the Work.

Nature not only provides the food in these wild places of the south, but does all the work. Does mankind wash clean dishes she has but to go out to a calabash tree and cut down the gourds, which grow to enormous size. Dried and cut in two, these calabashes are the bowls and dishes of the average Haytian household. Or beds in Hayti there are few. A straw mat on the dirt floor of the tiny cabin is sufficient. A blanket is almost unheard of.

The slaves of Hayti tilled the fields in other days under the white man's guidance. Left to their own devices, eventually they have let nature take its own sweet course. Even the most primitive agricultural implements are unknown to the rural Haytian of the south.

B.C. Fruit Prospects Bright.

Prospects are unusually bright for a good fruit crop in British Columbia this year, according to R. G. L. Clark, Dominion fruit inspector. Although there has been a little frost in spots, no damage was caused. Weather in the Okanagan Valley has been ideal, and present indications point to a heavy crop of berries and other fruits.

A favorite delicacy of the Eskimo is a dish of gill, and even half-hatched eggs, mixed with angelica and cranberries, and thrown into a seal-skin bag filled with whale oil.

For Better Country Roads

Hon. S. J. Latta, Minister of Highways and Provincial Secretary in the Saskatchewan Government. Mr. Latta's reputation for excellent work accomplished in connection with the Good Roads Movement has spread beyond the confines of his own province. Mr. Latta is also interested in newspaper work, being proprietor of the Prairie News, Govan, Sask.

Crop Rotations

Remedy For Soil Drifting Is to Seed Land to Grass at Regular Intervals.

The cropping systems in vogue in the prairie provinces have in the past consisted of such arrangements as alternative crop and summerfallow, two crops of grain and then fallow or three crops of grain and fallow. The first system has been adopted by a number of farmers in the districts with light rainfall and freedom from early autumn frosts. This arrangement has proven fairly profitable on farms where good cultivation has been given the fallow. In the northern districts two crops of grain between summerfallows has resulted in a less rank growth of straw and earlier maturity. The third arrangement, with three crops of grain between fallows can only be successfully carried out where there is a plentiful supply of moisture or the moisture is carefully husbanded by dry farming methods. While these systems have proven fairly successful on the virgin soils of the west, farmers are finding that the increase in weeds is demanding more frequent tillage of the fallow, thus increasing the cost of production. In addition to this, the fibre is rapidly becoming depleted and soil drifting is becoming a serious menace.

The only permanent remedy for soil drifting is to seed the land to grass at regular intervals. This can best be accomplished by establishing a rotation of crops which includes a grass. On the Scott Experimental Station no difficulty has been experienced in securing grass on good land. During the past nine years 27 fields have been seeded down and only on three fields has the catch been a failure, and in every instance this was due to seeding grass after peas, the soil having been polluted with weed seeds from crops that grew up after the peas had lodged in the late summer. The average yield of western rye grass hay from 19 fields has amounted to 2,110 pounds per acre per year. The seed was sown with the grain. Consequently, the only charges against the hay crop were the cost of seeding, rent of land and cost of haying operations. Where the grass has been used in good rotations, the fibre has been maintained in the soil, the weeds have been kept in control with less labor, and crops of grain following the grass have shown an increase. An eight-year average, using two fields in each case, has shown wheat on western rye grass seed summerfallow only gave a return of 20 bushels and 42 pounds, or approximately 3.4 bushels less per acre. Summerfallow seed land has lost slightly more than ordinary fallow. Based on pre-war prices, this only amounted on an average to 59 cents per acre—Experimental Farm Note.

What Ton of Ensilage Is Worth.

"One-half ton of silage equals one ton of sugar beets."
"Three tons of silage equal one ton of clover hay."
"Five and one-half tons of silage equal one ton of alfalfa hay."
"Two and one-fourth tons of silage equal one ton of marsh hay."
"Three and one-half tons of silage equal one ton of prairie hay."
"One-half ton of silage equals one ton of pumpkins."

Tattooing is forbidden to the Jews.

German Propaganda To Sow Dissension Among The Allies

An Underground City

Familiar Streets in London are Found Duplicated Below.

A man may spend the whole of his life in London and yet never set eyes on that wonderful underground city which stretches its maze under the "Babylon of bricks" with which he is familiar, says Tit-Bits.

He has, in fact, without realizing it, been walking over a buried city, with its network of scores of miles of streets.

And yet this silent subterranean London may be explored by anyone who will take the trouble to get the necessary permission.

We descend to our underground beneath the Holborn Viaduct and find ourselves in a light-filled vaulted passage, with well-paved floor and walls faced with white bricks. Beside us run the pipes of the gas and water companies, troughs containing the wires of the Electric Company, and the telegraph wires of the General Post Office. Overhead run the pneumatic tubes through which the written telegrams are blown from the district offices to St. Martin's-in-the-Grand.

As we wander on we find passages branching off to right and left, each labelled with the name of the street above it. Thus, walking westward along Fleet Street, we see Shoe Lane leading off to our right, Whitefriars and Bouverie Streets to our left, and so on; each familiar London street having its duplicate in our subterranean city, and each house above having its corresponding number below. At intervals we find shafts communicating with the upper world, admitting light and air; and through them we hear the tramp of feet and the rumble of wheels.

Now we hear the muffled rush of a train beneath our feet again through a grating we see a busy station far below us.

If we wish to carry our exploration farther we must equip ourselves in a rough snook, sea-boots, and a soul-winner. With candle in hand, let us descend into the dark depths beneath Farringdon Street, and make our first acquaintance with the historic Fleet River, which once flowed through green fields from the heights of Hampstead.

Now we find ourselves in a vaulted channel four yards high, through which the waters of the Fleet River flow swiftly towards the Thames. As we proceed the sound of falling water grows loud in the ear, and soon we are looking on a cascade which pours its waters with a roar into those of the Fleet. A waterfall beneath the hurrying traffic of Ludgate Circus!

But the most remarkable part of underground London still remains to be seen—the great, far-spreading system of sewers. The sewers of London are so long that, in a straight line, they would stretch from Liverpool to Rome.

These sewers have a capacity so enormous that they will carry away daily the contents of a lake as large as Hyde Park and three and a quarter feet deep. Some of them have a diameter of over twelve feet; their fall ranges from two feet to fifty feet in the mile.

Nor have we yet exhausted the wonders of hidden London. Deep below the city run hundreds of miles of enormous gas and water mains; and in between, at different levels, is the most wonderful network of underground railways in the world.

There are wine-vaults which contain thousands of casks of wine. Beneath St. Paul's Churchyard there is a spacious well-equipped restaurant where hundreds take their meals daily; and this is but one of many underground eating-houses, while there are bakeries which daylight never enters.

Near the Strand you have a dip in an underground bath into which Severus may have plunged seventeen centuries ago.

Mixed.

A contributor to an English weekly tells of an Irishman who was describing his narrow escape from a cross bull.

"I seized him by the tail," he exclaimed, and there I was! I was afraid to hold on, and I dared not let go."

"You were between the horns of a dilemma," ventured a bystander.

"No, ma'am, I wasn't between the horns at all, and besides, he wasn't a dilemma. He was a Jersey."

Every week, within the borders of London, approximately 4,000 children are born, 2,400 persons die and 2,600 begin wedded life.

Germany pleads poverty, but she has at least money enough to keep up her political secret service and foreign propaganda department. Of the latter, one of the latest disguises is "The League of German Patriots." With its imprimatur several leaflets in English have been put into circulation through the mails. One of them is specifically addressed to churchmen and appeals to all Christians to study carefully "the overwhelming proofs of Germany's innocence and the guilt of the Entente" in the matter of the responsibility for the war. It appears that the German Government, on account of its "inexperience and inefficiency in combating falsehood," has not before "taken the proper steps to stop upon England the guilt of the World War." But now the job is to be done thoroughly. And it is to be done by the simple means of asking such questions as the following: "Do you think Christ would have approved of the Great Lie rotting the moral fibre of a whole nation?"

A longer pamphlet is intended for "Britons with a conscience," and for the "American people." Americans ought to be thankful for the implied compliment. But it is no great compliment to their understanding to be asked gravely to read such "documentary evidence" as this.

The great work of civilization and commercial development which Germany has carried on in her colonies for the benefit of all nations is being destroyed under British rule through the incapacity of the administration and greed of her capitalists. What else could be expected from the rulers of India and Ireland?

It has been plain for some time that the old German propaganda machine has been started up at full speed. But it turns out the same old transparently stupid products. We simply get further proofs of the German inability to understand the mental and moral processes of other nations; especially to understand what other people think and must think of the Germans today. Again we have exhibitions of the serene German conviction that if you only lie stoutly enough and often enough you will be believed, and that the way to persuade those opposed to you is to begin by insulting them. The aim of the whole new effort is obvious. It is to sow dissension among the Allies, and particularly to stir up trouble between the United States and England, or France, or both, with Japan thrown in to help out. But the thing is so grotesquely timed and executed as to defeat its own purpose—unless, that purpose be to excite fresh disgust with German methods.

Five Tragedies

And the Last Was Not the Least of the Mournful Happenings.

A man struck a match to see if the gasolene tank to his auto was empty. It wasn't.

A man patted a strange bull dog on the head to see if the critter was affectionate. It wasn't.

A man speeded up to see if he could beat the train to the crossing. He couldn't.

A man touched a trolley wire to see if it was charged. It was.

A man cut out his advertising to see if he could save money. He didn't.

No Speed Limit in Cuba

Taxi Drivers Very Adept in Avoiding Each Other.

Havana, Cuba, claims the distinction of having solved the problem of cheap transportation more satisfactorily than any other city.

Operating within a territory whose radius is to the greater than a mile, 8,000 automobiles carry one or two persons between any two points in the circle for 20 cents. Under no speed limitations, the drivers are left to their own fate, rushing back and forth through the streets, but their feet and hands become so highly developed that they can swerve out of one another's way more adeptly than can be imagined.

Teaching the Boy.

"If I am grieved to hear, my boy," said father, "that you have told your mother several falsehoods. Always tell the truth, even if it should bring trouble upon you. Will you promise me to do so?"

"Yes, father," replied the boy.

"Alright. Now go and see who is banging at the door. If it's the landlord, say I'm out."—Houston Post.

Work of The Red Cross

Giving Medical Attention to Those Who Live in Remote Districts.

A Red Cross worker, one of the primitive sections of the west made a discovery last summer. She visited a sawmill camp and, while there, discovered two men, one of who had chopped half his foot off with his axe and was unable to get any treatment for it. The other had suffered a kick in the shin from a mule and the jaw bone was broken. He was unable to get the bone set. Both travelled 30 miles to a place where they hoped to find a doctor and they travelled in vain. When they arrived they were all in. They were put to bed and remained there until, as in the case of animals, their hurts healed and they were able to go back to their work. The net result of their failure to receive attention at the proper time, or, indeed, at any time, is that one will limp badly for life and the other will have a terribly disfigured face.

The Red Cross, organized for peace, will, by its guidance and expert advice, make it possible for all such far away communities to have something like adequate medical and nursing attention by equipping hospitals and nurses' quarters and providing suitable surgical and medical supplies for the treatment of all such and similar cases, whether of accident, disease or what not.

Not only that, but the Red Cross aims to give lessons in first aid to the sick and injured and to teach people who, by reason of the nature of their occupations, must live far from medical and nursing aid, just what they should do to aid sufferers who come within the zone of their influence.

The Red Cross, it is realized, is needed now more than at any other time in the history of the country, and it is earnestly hoped by those who are endeavoring to organize the humanitarian force of the world that Western Canadians to the very last man and woman, boy and girl, will join the Red Cross when the campaign is on from June 5 to 11.

Will Help Campaign To Fight Hoppers

C.P.R. Will Have Poison Laid Down Along Railroad Right-of-Way.

The C.P.R. will assist the campaign to squelch the grasshopper this year by laying down poison along the railroad's right-of-way through affected areas, it is stated by Thos. Acheson, general agricultural agent of the C.P.R., in a letter of F. Hedley Auld, deputy minister of agriculture. Mr. Acheson states that if the municipalities will provide the poison to the section foreman at cost, instructions will be issued to foremen to distribute the bait, the work to be done by the section gangs under the supervision of the Government officials in charge of the general campaign.

In the opinion of the officials of the Department of Agriculture the grasshopper menace promises to be as serious this year as last, though the centre of attack may be slightly changed, some of the older districts badly infested last year being more free of the pests, while it is expected that some districts comparatively immune last year may have to be prepared for a strenuous attack.

Lesser, Evil.

Bill Collector.—"But why do you let your wife spend all your money?" Mr. Henpeck.—"Because I'd rather argue with you than with her."—American Legion Weekly.

Owls are found all the world over.

CUTICURA HEALS PIMPLES

In terrible rash on face which made skin sore and inflamed. Irritated face by scratching and was disfigured. Could not sleep well and made feel unpleasant. Trouble lasted 3 months before used Cuticura and after using 2 boxes of Soap and 1 box of Ointment was completely healed.

From signed statement of Miss Gladys Mebel, R.R.3, Brussels, Ont. Cuticura Soap, Ointment and Talcum promote and maintain skin purity, skin comfort and skin health often when all else fails.

Soap, 25c. Ointment, 25c. and 50c. Sold throughout the Dominion. Canadian Importers, Limited, St. Paul St., Montreal.

W. N. U. 1364

OLD STANDBY, FOR ACES AND PAINS

Any man or woman who keeps Sloan's Liniment will tell you that it does things.

ESPECIALLY those frequently attacked by rheumatic twinges. A counter-irritant, Sloan's Liniment scatters the congestion and penetrates without rubbing to the afflicted part, soon relieving the ache and pain. Aches and pains and everywhere for reducing and finally eliminating the pains and aches of lumbago, neuralgia, muscle strain, joint stiffness, sprains, bruises, and the results of exposure. You just know from its exposure, healthy odor that it will do you good. Sloan's Liniment is sold by all druggists—35c, 70c, \$1.00.

(Made in Canada)

Sloan's Liniment (Pain's Enemy)

North Offers Canada Great Opportunity

Laird River Will Produce More Than The Yukon.

In 25 years, with an efficient development programme, J. T. Burns, engineer, geologist and Yukon pioneer, believes the northern country will be producing \$500,000,000 annually. "Canada's great opportunity lies in the north," he stated.

"I have spent 20 years in the Yukon," Mr. Burns continued, "and have planned it from one end to the other, so I may be said to know the Yukon as well as most old sourdoughs. But from what I have seen of the Laird River and its head streams I am convinced that for production it could outdo the Yukon."

Mr. Burns is urging construction of a railway from Stewart into the Laird country about the confluence of the Dease and Frances Rivers, and thence north to Fort Norman or east to Fort Simpson, at the confluence of the Laird and Mackenzie. This road, he points out, would not only tap the newly discovered oilfields, but would open up the Groundhog coal country and the placer gold and quartz district west of Fort Simpson.

The Portland Canal, Mr. Burns insists, is the logical outlet for the mineral products of the Mackenzie River basin, and he backs up his contention by reference to the map. From Stewart to Fort Norman is approximately 625 miles, 275 miles less than from Edmonton to Fort Norman. From Stewart to Fort Simpson is approximately 500 miles, 150 miles less than from Edmonton to Fort Simpson. In addition to this, Stewart is at tidewater, while Edmonton is hundreds of miles away from it.

America's Champion Typist

Has a Speed Record of 265 Words a Minute.

Miss Rose L. Fritz, America's champion typist, has been telling a New York interviewer that her speed contests mean as much to her as a big concert to a musician or a football game to an athlete. For two months beforehand she is in training. She takes physical exercises, walks a great deal, eats only the simplest food and sleeps regularly. Unless she were in perfect condition her nerves might "go back" on her. She started her high-speed career when she was only fifteen. A manufacturer of typewriting machines happened to visit the typewriting school at which Miss Fritz was a pupil, and was struck by the rapidity of her work, which was due to her adoption of the touch system. She was asked to come to his office and exhibit her powers, and as a result the company offered her a three-year contract to operate and demonstrate their machines. Since then she has won forty championship trophies. Her extreme speed record is 265 words a minute, but that, she explains, was done on short words and on material which she knew. In transcribing new material she has sometimes written as many as 155 words a minute.

Farmers Come From U.S.

Elmer Woodcock, of Joliet, Illinois is one of the vanguard of the spring's flow of farmers from across the line. He has staked his faith in the country to the extent of \$50,000, which he has paid for a section of land near Sperling, Man.

Good Goods Wanted.

Too many Canadian manufacturers have been relying upon the tariff to sell their goods for them. If they would make a good article, brand it, and advertise it, the problem would be settled.—Farmers' Sun.

Athens, the Greek capital, enjoys bright sunshine on an average of 303 days in the year.

A Matter of Color

College Boy Did Not Get Ahead of Gardener.

An American writer tells a story of his college days. It relates to a negro gardener, with whom the boy used to have considerable sport. One day in spring, Sambo had been burning the college green in order to get rid of the old withered grass. A freshman came along, and, thinking to have some fun, shouted: "Say, there, Sambo, you ought not to burn that stuff." "Why?" inquired Sambo. "Because," replied the freshman, "it'll make that grass as black as you are." "Well, massa," retorted Sambo, "dat's all right. Dat 'ere grass 'll come up and be as green as you are!"

Nine hundred and ninety-seven cutting tools alone are required in manufacturing a modern rifle. The twist drill is one of the busiest of these. To supply 1,000,000 rifles 94,000,000 holes must be drilled.

WIND ON THE STOMACH Quickly Relieved

It is a good thing to know just what to do when gas belching starts. One sufferer related the following experience: "A few months ago I ate some green vegetables and some fruit that was not quite ripe. It brought on indigestion, hiccoughs, nausea and cramps. I belched gas continually. A neighbor urged me to use 'Nerviline.' I took it in hot sweetened water and got quick relief. I will never again be without this valuable remedy." Nerviline is a household necessity, large 35c bottles sold everywhere.

Think Airplane is Bird

Frightened Natives Hide in Timber For Hours.

There are even yet in remote parts of the world people who never even heard of an aeroplane. Some of these people live in the little Nicaraguan village of Gigante, where the naval plane NC-6 was forced down by a hurricane while on its flight from San Diego, Cal., to Panama, along with about a dozen other planes, in January.

They thought the NC-6 was a huge bird, an albatross, which had come in search for some unfortunate mariner who had offended it and they hid in the woods for several hours.

Unfit to Live—Must Die

This verdict is rendered a thousand times every week—no corn can live, it must pass out, drop off, if Putnam's Extractor is applied to corns and warts. Use the old reliable "Putnam's" it never fails, 25c at all dealers.

Planes for Mounted Police

Recommendation is Made that Riders of the Plain Should Now Travel By Sky Route.

If plans now projected work out, the old idea of red-coated riders of the plains dashing over the crests of hills on horseback, or mushing along the lone trails with huskies and sleds is due for a revision. Instead, in the not far distant future the mounted police are due to arrive at outside posts by airplane, thereby being enabled to carry the "white man's law" to the natives in the farthest north, covering in a few hours their patrols now take as many days.

In the report of the commissioner of the Royal Canadian Mounted Police, tabled in the house by Hon. J. A. Calder, Commissioner Perry says a request has been made to the air board to share in an air service to Fort Norman from Peace River next summer. "The force," says Commissioner Perry, "has placed at the disposal of the board suitable quarters at Peace River and storage and accommodation at all posts down the Mackenzie."

"I anticipate an extension of this service to other points in the north-west territories, which are very remote and difficult of access."

Select Laxative Medicine With Great Care

In debility and weakness, medicine should be mild and far reaching. Many pills and purgatives are too hard, are drastic instead of curative. Laxative action is always followed by depression, and knowing this Dr. Hamilton devised his pills of Mandrake and Butternut so as to mildly increase liver and kidney activity, so as to flush out the system by toning and regulating the bowels. Thus do Dr. Hamilton's Pills eliminate poisons from the body, thus do they restore clearness to the skin, thus do they renew health and strength. To keep your system in healthy good working order, regulate it with Dr. Hamilton's Pills, 25c at all dealers or The Catarthone Co., Montreal.

Canada Should Not Export Raw Material

No Reason Why Country Cannot Manufacture More at Home.

Some years ago Ontario exported her sawlogs to the United States, where they were sawn into lumber. Quebec exported her pulpwood to American paper mills. During recent years Ontario has saved her logs at home while Quebec has converted her raw pulpwood into paper, with the result that a huge lumber, pulp and paper industry has been built up in this country.

A somewhat similar situation now exists in connection with some of our mineral products. For example, Quebec, which has 85 per cent. of

the world's asbestos, last year exported over \$11,500,000 worth of the raw material, sending it to the United States, Great Britain, Japan, France and other countries. It is estimated that this crude asbestos would be worth \$81,500,000 if it were manufactured at home. In Ontario we used to export our nickel ore in its raw state, but within the last few years we have been refining the ore at home.

There is no reason in the world why we should not manufacture more of our raw materials at home instead of sending them out. Sawlogs, pulpwood, ore and various other commodities should be manufactured by ourselves. In other words, we should build up our basic industries and not spoon-feed exotic industries.—Farmers' Sun.

The Hague is one of the handsomest cities in Holland.

Half of all the lead pencils in the world are made from American-grown cedar.

Rheumatic Pains

Are relieved in a few days by taking 30 drops of Moller Segel's Syrup after meals and on retiring. It dissolves the lime and acid accumulation in the muscles and joints so these deposits can be expelled, thus relieving pain and soreness. Segel's Syrup, also known as "Extract of Roots," contains no opium or other strong drugs to kill or mask the pain of rheumatism or lumbago, it removes the cause. 50c. a bottle at druggists.

Increased Acreage.

An increased acreage of 500,000 acres is expected to be sown in wheat in the province of Manitoba this spring. Indications are for the early opening of agricultural operations. The season has been especially favorable, and farmers are getting their machinery in order for operations.

All fish eating birds have their beaks slightly curved at the end to prevent their prey slipping away.

RED CROSS

In Peace or in War—The one Universal Emblem of Sacred Motherhood, watching over Mankind. Counting neither cost nor Sacrifice. Measuring only Service and Devotion.

In time of peace, all over civilization, the Red Cross, drawn by great need, has consecrated itself to the task of active, vigilant, comprehensive service to these high ideals:

THE IMPROVEMENT OF HEALTH.
THE PREVENTION OF DISEASE.
THE MITIGATION OF SUFFERING THROUGHOUT THE WORLD.

In Manitoba, in Saskatchewan, and in Alberta, the Red Cross has undertaken broad and effective programmes that will not only lead to these ends, but will in their progress and accomplishment make our communities better places to live in, brighten our lives, improve our material welfare, and help weld all the people of our prairies into a brotherhood of common sympathies.

And so also in all the other Provinces of our Dominion, and in every land and clime that knows the crimson badge of mercy:

UNIVERSAL MEMBERSHIP ENROLMENT

Western Canada Dates, June 5-11

Red Cross is not asking that you pour gifts of money into her lap at this time—excepting only a nominal membership fee of One Dollar; but it proposes to lay before the citizens of the west its programme and its peace policies, point out the need for its helping hand, and ask every man, woman, and child during that week to subscribe to its creed, enlist in its ranks; to join the Red Cross, enroll his or her name, and become a member of the Society.

And this is also a call to every citizen who can and will, to give their service to the organization, to assist in the work of personally extending to every individual the opportunity and privilege of this membership.

"Your Teeth"

By Rea Proctor McGee, M.D., D.D.S., Editor of Oral Hygiene.

DO IT NOW.

Copyright, 1921, by Rea Proctor McGee.

It is very encouraging to think that "it is never too late to mend," but when mending is postponed too long there is so much damage done that there is nothing left but the repair.

The best way to avoid damage is to take care in the first place. If a child is taught to take care of his baby teeth from infancy, those teeth will do their work and give comfort, health and beauty.

The teeth, the gums, the tongue and the cheeks of every child, should be brushed thoroughly twice each day.

Every child should have its own brush and a can of good tooth powder or a tube of tooth paste.

The brush must be kept very clean. When the teeth are to be washed, the brush should be wet in running water and the paste or powder placed on the brush.

Then the chewing surface of the teeth should be thoroughly brushed, both above and below.

Wet the brush again and brush thoroughly the lingual or tongue side of the teeth.

First, scrub them well with a circular movement, then place the brush at the gum margin on each tooth in turn and brush straight to the chewing surface, paying particular attention to cleansing the spaces between the teeth.

Repeat this on the labial, or outside, surface of the teeth, using plenty of water and dentifrice.

After these movements have been completed, brush the inside of the cheeks and lips, then the gums and finally the tongue.

Rinse the mouth with clean water or a mild mouthwash, then wash the tooth brush and hang it up to dry until it is time for the next "tooth bath."

Don't put two or more tooth brushes in one container.

Hang up every brush by itself so that it will not be touched by any other.

Dragged Down by Asthma. The man or woman who is continually subject to asthma is unfitted for his or her life's work. Strength departs and energy is taken away until life becomes a dreary existence. And yet this is needless. Dr. J. D. Kellogg's Asthma Remedy has brought a great change in many sufferers. It relieves the restricted air tubes and guards against future trouble. Try it.

Calgary Horse Show

Large Number of Entries Contributed to Success of Event.

A total of eight hundred and fifty-four head of horses were entered in the horse show in Calgary. They included seventy-nine Clydesdales, twenty-three Percherons, eight Shires, fourteen Belgians, three Suffolks, thirty-six purebred and half-bred heavy draft, eighteen Hackneys, seventeen thoroughbreds, seventeen standard bred, nine light grade foals, seven rosters, one hundred and twenty-one carriage, seven combination, fourteen delivery, thirteen ponies, registered, thirty-three ponies pure-bred or grades, thirty-three polo ponies, sixty-three children's classes, one hundred and sixty-five saddles, one hundred and thirty-one hunters and jumpers.

Minard's Liniment for Sale Everywhere.

How Kronstadt Was Captured.

How the offensive developed is generally known. Trotsky's first attack was a failure, but he adopted other methods. By means of sham attacks he allowed part of his troops to run over to the enemy, and when night time came he launched his main attack, during which the defenders were attacked from behind by the sham deserters.—New York Tribune.

Looks Likely Enough. Can Germany pay the indemnity? Mr. Charles M. Schwab, who has been studying conditions in Europe, gives the answer. "Germany," he says, "will recover from the effects of the war much sooner than any other of the European countries involved in it."—Calgary Herald.

Costly Bolshevik Propaganda. According to information from Bolshevik official sources the Moscow Government spends about 2,000,000 marks in gold monthly on its propaganda in Germany. The expenses for propaganda in England, where about 1,000 Bolshevik agents are working, amount to 24,000 pounds sterling monthly.

Minard's Liniment For Dandruff

It Works Wonders On Colds, Catarrh, Bronchitis, Weak Throat

When your throat rattles, your lungs and chest are sore, your throat is stuffed with cold—don't fear consumption—use Catarrhzone and get well.

It clears the throat, stops hacking, relieves tight chest and soreness in the bronchial tubes. To clear away Catarrh of the nose nothing could be better. Catarrhzone is Nature's own remedy—it heals and soothes—removes every form of throat, lung and bronchial trouble. Prescribed by many specialists and used by thousands every day. Get the dollar outfit; it lasts two months. Small size, 50¢ trial size, 25¢ at all dealers or the Catarrhzone Co., Montreal.

A Titanic Egg

Ottawa Hen Breaks Record Set Up in Kansas and Regina.

The heroic efforts of a Westboro, Ont., hen to produce a titanic egg have eclipsed the Kansas and Regina hens recently heard from. Recently, this hen, a White Leghorn, laid an egg which weighed slightly over a quarter of a pound and was eight and a half inches long and six and a half inches in narrow circumference. Both weight and dimensions break the record made by the Regina hen, whose product was on the wrong side of a quarter of a pound by an eighth, the narrow circumference being only six inches.

NERVOUS PEOPLE NEED A TONIC

Dr. Williams' Pink Pills Enrich the Blood, Thus Increasing Your Nervous Energy.

Nervous people who have not yet developed a disease that can be recognized and treated by the medical profession, often have great trouble in finding relief. Irritation, headache, sleeplessness, nervous headache. All these discomforts make life miserable, but are endured rather than run a doctor's bill.

Such sufferers should know the danger of such a condition, which, if allowed to persist, may result in a nervous breakdown. In this condition what is needed is rich, red blood. As a tonic for the blood and nerves, Dr. Williams' Pink Pills have been used with much success. They have a direct action on the blood, and through it carry to the nerves the elements needed to restore their normal function, at the same time improving the general health. The best way to follow the use of Dr. Williams' Pink Pills is shown by the case of Mrs. Norman Selfridge, West Montrose, Ont., who says: "It would be hard for me to overstate the benefit I have derived from the use of Dr. Williams' Pink Pills. Before I began taking the pills I was very nervous, weak and run down. I could hardly do my housework, and as there is a great deal of work to do about a home on a farm, I felt very much discouraged. One day while reading a newspaper I saw an advertisement of Dr. Williams' Pink Pills and decided to give them a trial. I could notice beneficial effects after taking a box of the pills, I could again do my work with ease, was no longer weak or nervous, slept well at night, and awoke in the morning feeling well and strong. I am happy to say that the pills so greatly benefited me."

Dr. Williams' Pink Pills are sold by all dealers in medicine or will be sent by mail on receipt of 50 cents a box or \$2.50 for six boxes by writing The Dr. Williams' Medicine Co., Brockville, Ont.

Decrease In Tuberculosis.

Deaths from tuberculosis in England and Wales are decreasing rapidly. The figures as given by the ministry of health, are 46,312 in 1919, against 58,073 in 1918.

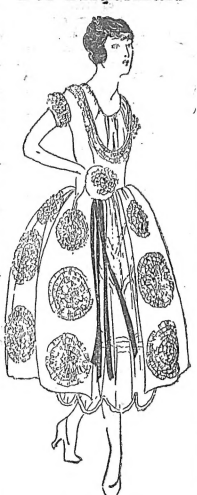

Internally and Externally it is Good.—The crowning property of Dr. Thomas' Electric Oil is that it can be used internally for many complaints as well as externally. For sore throat, croup, whooping cough, pains in the chest, colic and many kindred ailments it has curative qualities that are unsurpassed. A bottle of it costs little and there is no loss in always having it on hand.

Twenty thousand women are employed in the fruit and vegetable packing industries in California.

Picturesque Gown For Bridesmaid

By Marie Belmont.

At present there is a decided tendency toward the period when the billowy skirt held sway. This mode is cleverly interpreted in the bridesmaid's dress of blue radium silk. Its bouffant folds are elaborated with cart-wheels of exquisite lace. The petticoats of tulle and organdie are outlined and elaborated with much lace. This, too, is set in several rows about the little net tucker that gives such a pleasing line to the décolletage. The puffed sleeves are made entirely of lace, while the formal bouquet of pink rosebuds is enriched with ribbon streamers. Bright green, rose, periwinkle and honeysuckle are the color.

"Cold in the Head"

In an acute attack of Nasal Catarrh. Persons who are subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the system, cleanse the blood and render them less liable to colds. Repeat attacks of Catarrh of the Nose and Throat. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system.

All Druggists 75c. Testimonials free. \$10.00 for any case of catarrh that HALL'S CATARRH MEDICINE will not cure.

E. J. Cheney & Co., Toledo, Ohio.

B.C. Forest Fires

During Last Year 390,000 Acres of Timber Were Burned.

Statistics compiled by the forest branch of the Provincial Government show that during last year 390,000 acres of timber were burned in British Columbia. This represents a loss of 236,000,000 feet, valued at \$299,000. The damage to young growth is estimated at \$186,000, or a total of \$485,000, as compared with \$393,000 in 1919. Of the season's fires 345, or 28 per cent, were caught and extinguished before they had reached a quarter of an acre in size, and 391, or 31 per cent, were extinguished before they had reached ten acres. Wireless telephones were tied out with satisfactory results.

The Hand of Fellowship.

After all, it would indeed be a barren victory if the co-operation of Great Britain and the United States in arms were to be followed by estrangement and veiled hostility. Fortunately all the signs point to the development of a cordial spirit of comradeship between the two nations, notwithstanding the somewhat formidable list of problems which confronts them and the malignant efforts of certain people to use that list for ignoble purposes of division and strife.—London Morning Post

Worms, however generated, are found in the digestive tract, where they set up disturbances detrimental to the health of the child. There are no cases of worms in the little ones until the harmful intruders have been expelled. An excellent preparation for this purpose can be had in Mill's Worm Powders. They will immediately destroy the worms and correct the conditions that were favorable to their existence.

Toy Factory at Coast.

The manufacture of toys, from British Columbia materials, will be commenced in Vancouver shortly by a company which was recently incorporated with a half million dollars capital. It is the intention of the company to confine manufacture to toys and doll houses.

Pleasures are the commas used to punctuate life's sad story.

W. N. U. 1364

There are more than 150 brands of baking powder in Canada; and the fact that there is more MAGIC BAKING POWDER used than all the other brands combined shows why Magic Baking Powder is known as Canada's best baking powder.

A Power of its Own.—Dr. Thomas' Electric Oil has a subtle power of its own. All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

A One-Sided Union.

Austria continues to talk of "uniting" with Germany, but when the ally-gator swallows the pickaninny, we don't usually speak of them as uniting.—Kansas City Times.

Don't Want German Labor

People of Rheims Want to Rebuild Their Own City.

Former inhabitants of Rheims, 70,000 of whom have returned to the ruins of that city, object to any plan of having German laborers rebuild the town and have announced that they want to do the work themselves. M. Loucheur, minister of devastated regions, who recently visited Rheims, was told by the mayor of that place that it has suffered damages from war to the extent of \$74,000,000.

Germany Has Paid \$500,000,000.

In reply to a question in the House of Commons, Premier Lloyd George stated that the net amount of reparations money received from Germany was about 100,000,000 pounds sterling.

Collinholme Municipal News

(Continued from page four.)

grata advances hereunder shall be secured by promissory notes due on demand and by registered seed grain liens in favor of the municipal district upon all crops grown on the lands named in the application for the season after the date thereof, and by a charge upon the said lands.

The above bylaw was read a third time and finally passed.

Bylaw No. 21 of the M.D. of Collinholme A. Bylaw relating to Municipal Rates. Whereas the sum of \$2,000 is required to meet the expenditures of this municipal district in supplying relief to destitute farmers residing therein, the council of the municipal district enacts as follows:

1. That the reeve and the treasurer do, and they are hereby authorized to borrow upon the note or notes of the municipal district the said sum of \$2,000 for this purpose.

2. That the amounts advanced hereunder shall be secured by promissory notes due on demand and by registered liens upon the lands of the persons securing such relief and by any other security the council of the municipal district may consider necessary.

The above bylaw was read a third time and finally passed.

The following bills recommended by the finance committee were passed for payment:

G. O. Marr, \$10.80; L. S. Dawson, \$75; U.G.D., \$15; U.G.G., \$34.25; U.G. O., \$45; H. Zehren & Sons, \$75; E. L. Robinson, \$1.05; J. M. Montgomery, \$10; J. M. Montgomery, \$25; I. W. Deman, \$21; I. W. Deman, \$18; I. W. Deman, \$12; Lorne Proudfoot, \$1.82; Lorne Proudfoot, \$2.46; H. Dunster, \$5.00.

That \$54.77 due John Boyd under the provisions of the Soldiers' Home Tax Exemption Act be now paid; \$34.40 applied on his taxes on the south-east 38-27-8, and the balance, \$20.37, paid in cash.

That agreement made with E. Gough for half an acre of land more or less from the south-west corner of section 4-27-7 for a road diversion, price \$30.00 per acre, be approved by the council.

That the secretary be instructed to advertise for three road foremen for the municipality, wages \$7.00 per day, applications to be received by the secretary, or by any one of the councillors before the 15th of May.

That J. A. McColl, M.L.A., be asked to do what he can towards having the provincial government put in the bridge on the Blood Indian Creek south of 3-27-9.

That Mr. McColl be asked to see that the big hill south of section 1-26-9 is graded.

Little—That Mr. McColl be asked for an appropriation of \$600 for the road from Chinook to Hearville.

That Mr. McColl be asked for an appropriation of \$600 for work on the Chinook road south of Youngstown, the part of this road that lies in township 28-9 and the north half of township 27-9.

That Lorne Proudfoot be engaged as secretary-treasurer of the municipality for this year at the same salary as last year.

That the remuneration for the members of the council shall be as follows: \$5 per day for the reeve and \$4 per day for each councillor for each meeting and 10 cents per mile for every mile necessarily travelled in coming to and returning from such meetings of the council; and for both reeve and councillors 10 cents per mile for every mile necessarily travelled, and \$4.00 per day for the time not exceeding 15 days necessarily occupied in laying out or inspecting work performed or to be performed for the benefit of the municipality.

That we do now adjourn to meet again in the Collinholme school on Saturday, May 21st, at 10 a.m.

Seeding Will Commence This Week

During the past week the weather has been exceptionally fine, and by the way the land in the Chinook district is drying up, it is thought that seeding will be general this week. The recent snow storm has put lots of moisture in the ground and the prospects look very good for a better crop this year.

The flies are buzzing at your door. Keep them out with one of Woodruff's screen doors.

Carl Lensegraf, who has been spending the winter in the States, returned last Saturday.

List of Cases to Come Before the Supreme Court at Hanna May 25

The Supreme court for the judicial district of Acadia will be held at Hanna on May 25, Mr. Justice McCarthy presiding.

The following cases will be tried:

Rex vs. Booth, burglary of C. G. Nelson's store at Youngstown.
Rex vs. Wentzel, attempted murder at Hanna.

Rex vs. Appleby, abduction.
Monroft and Ryan, burglary of J. R. Miller's store at Chinook.

Alberta's Greatest Market Place

There is a busy market place in Alberta used by 100,000 people and through the medium of this big exchange more trading, buying and selling, etc., is done every day than by any other means. Bills Passed at Present Session

Following are some of the bills passed at the 1921 session of the Alberta legislature:

Tightening up regulations of the vital statistics branch to enforce better reporting of births and deaths.

Amending the Agricultural Societies Ordinance to prohibit new societies within 25 miles of existing one; cutting down annual grants.

Amending Municipal Hail Insurance Act, so that all owners and occupants of land within districts have crops insured subject to provisions for withdrawals; increasing fee of representatives to six instead of four dollars per day; giving board power to reinsure; requiring reports from owners before June 15; raw or unbroken land excluded from act; insurance extended to Dec. 30; claim not in by November 1 barred; claims of 1919 and 1920, no notice sent, barred; before crop is damaged or destroyed, insured may by notice increase insurance.

During the past week business has picked up and the town presents a lively appearance. The farmers are busy buying repaired and new farm implements. In spite of the high price of farm implements quite a few seed drills have been sold by the local implement dealers.

The trustee board of the Chinook church, wish to thank all those who have so liberally donated to the church during the past year. The Secretary of the Board, Mr. C. W. Rideout, desires to inform the adherents that next Sunday being the end of the financial year, all donations become due, and in order to be able to prepare a statement for the Convention it is necessary that all outstanding donations be paid as soon as possible.

Curfew By-Law

The Council of the Village of Chinook enacts as follows:—

1. That no minor, not of the full age of sixteen years, shall be allowed to present himself or remain upon the streets or in public places in the Village of Chinook after the ringing of the Curfew Bell, unless accompanied by a parent or other legal guardian.

2. That the Curfew Bell shall be rung at 9 p.m. (C.N.R. time) on all days except Saturdays and Sundays when it shall be rung at 10 p.m.

3. Any parent or legal guardian, whose child violates the provisions of this by-law, shall, upon conviction before a Justice of the Peace, be liable to a fine not exceeding twenty-five dollars (\$25) and costs.

Done and passed in Council assembled this 14th day of April, 1921.
